Technical Skills

Languages & Frontend: HTML, CSS, JavaScript,Tailwind CSS, React, Responsive Web Design, SQL.
Tools & Platforms: Git/GitHub, VS Code, Netlify.
Soft Skills: Problem Solving, Effective Communication, Team Collaboration, Time Management.

Academic Projects

DemoCafe – Responsive Landing Page with Authentication (Frontend) *Personal Project*
Technologies: HTML, CSS, JavaScript, Tailwind CSS

- Developed a responsive cafe landing page with modern UI, including sections like homepage, menu, and user profile, ensuring a clean interface and smooth user experience.
- Implemented Login and Registration functionality using JavaScript, utilizing localStorage to store and manage user authentication data on the client side.
- Ensured mobile-friendly and optimized design using Tailwind CSS and media queries, providing consistent performance across different devices.

Portfolio - Personal Portfolio Website (Frontend) *Personal Project*
Technologies: React, HTML, CSS, JavaScript

- Developed a responsive personal portfolio website using React, showcasing projects, technical skills, and creative work with a modern and interactive UI.
- Designed and structured key sections including About, Projects, Skills, and Contact, improving user navigation and engagement.
- Implemented component-based architecture and responsive design, ensuring reusable code, scalability, and smooth performance across devices.

Alsinic Art – E-commerce Style Art Website (Ongoing) *Personal Project*
Technologies: React, HTML, CSS, JavaScript

- Currently developing a responsive art-based website using React to showcase handmade products like paintings, resin art, and gifts with a modern UI design.
- Designing product listing and collection pages using reusable React components, focusing on structured layout and user-friendly navigation.
- Planning to integrate WhatsApp-based ordering system and dynamic product management, with a focus on mobile-first responsive design.
