PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience in developing responsive web applications using React.js, JavaScript, HTML5, CSS3, Tailwind CSS, and Bootstrap. Experienced in building modern user interfaces, component-based applications, and responsive layouts through personal projects. Passionate about writing clean, maintainable code and eager to contribute to building high-quality web applications while continuously enhancing my technical skills.

TECHNICAL SKIL

Languages: Python, Java, JavaScript (ES6+)
Backend: Node.js, Express.js, REST APIs, RESTful Web Services
Frontend: HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Bootstrap
Databases: MongoDB, MySQL
Tools: Docker, Git, GitHub, VS Code, Figma, Vite, Postman, Nectify
Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), SDLC, DBMS, Responsive Web Design, Authentication, CRUD Operations.

PROJECTS

Alsinic Art – E-Commerce Platform

github.com/Ishwariwadnare/Alsinic-art-project

React.js, Tailwind CSS, Node.js, Express.js, MySQL, JWT Authentication, Git, GitHub

- Developed a full-stack e-commerce website for a handmade gift brand featuring product collections, cart, wishlist, and personalized product customization.
- Built a secure admin panel with authentication and CRUD operations to manage products, categories, and blogs using Node.js, Express.js, and MySQL.
- Designed a responsive and modern user interface with React.js and Tailwind CSS, ensuring a seamless user experience across devices.

DemoCafe – Café Landing Page

github.com/Ishwariwadnare/Democafe

HTML5, CSS3, JavaScript, Tailwind CSS

- Developed a modern and responsive café landing page using HTML5, CSS3, JavaScript, and Tailwind CSS.
- Created visually appealing sections with responsive layouts, smooth navigation, and interactive UI elements.
- Optimized the website for desktop, tablet, and mobile devices using responsive design principles.

JobSpire – Job Portal

github.com/Ishwariwadnare/Jobspire-job-portal

HTML, CSS, JavaScript, Local Storage, GitHub

- Developed a responsive job portal web application using HTML, CSS, and JavaScript with a clean and userfriendly interface.
- Implemented user authentication, job search, filtering, save jobs, job application, and logout functionality using Local Storage for client-side data management.
- Designed responsive layouts and interactive UI components to provide a seamless user experience across different devices.
